PLAIN PACTS.

The atreets of New York are unclean, notwithstanding Mayor GRANT's remarks to the contrary. It does not make any difference if the streets in every city in the Union are worse than ours That only proves that the other cities are in a very bad way. New York pays annually bundreds of thousands of dollars for streetcleaning purposes, and expects at least a fair return. This it is not getting.

Commissioner BEATTIE says that he doe not get money enough to clean the streets thoroughly. This may be all so under present system. But if what dividend. money he does get was properly expended, and his bureau was conducted would be in much better condition than means. they are. The clouds of dust and disineyes and inhaled into the lungs of our unfortunate citizens are a pain and outrage that should not be tolerated.

Mayor Guant is able to get away from this nulrance and at present is inhaling salty breezes at Atlantic City. Perhaps he thinks he has done his duty by leaving with us the report that New able seamen. Why? York streets are cleaner than those of any other American city. There are many who may not agree with him.

affairs would be improved in accordance with their sacrifices.

Napoleon carried the bell with him to France and retained it as a prize curiosity until his downfall and banishment to St. Helena, when he gave it to his brother, Joseph Bonaparte, who, likewise being banished, brought the old relie to America and hung it in a beliry at his home in Bordentown.

There it remained, says the Paterson (N. J.) Call, serving as a dinner-bell on the farm, its history remaining unknown until Joseph's recall from exile. Then it was lost sight of and for years forgotten, until one day some curicaity-seekers rummaging about in one of the subterranean passages that honeycombed the place came across it in some old rubbish.

People came from all sections to visit the so-called catacombs and see the historic bell. At that time the Camden and Amboy Railroad had just been built and the old bell was sold to the Company, who placed it in their depot at Bordentown to tell the arrival and departure of trains.

It hung there for years, but finally.

trains.

It hung there for years, but finally, through some channel or other, it feil into the hands of the Paterson and Hudson River Railroat Company and was destined to another period of obscuracy. At that time the Company operated its road by horses, and the old bell was hung in the Jersey City station at the foot of Bergen Hill to answer the same purpose that it did at Bordentown.

When the great railroad revolution took place and steam-cars were substituted for the old horse-cars the bell was brought to this city. In those days the terminus of the road was where St. John's Church now stands. Two trains were run each way daily.

Church now stands. Two trains were run each way daily.

A small branch manipulated by horse-power, however, ran from the main de-pot on Market street at its conjunction with Main street. Here the old bell was hung on a post and its duty was to ring for tail on hour before the desugrance

cach train.

Passengers could board the horse cars without extra expense and ride to the main depot, whence they could take the train for New York. As time went on, however, improvements developed in the railway service. The Market street (it was then Congress street) branch was abandoned and the old post on which the bell hung rotted and felt down.

But Paterson was also begin in to make great strides forward. Then the only educational facilities were private institutions and subscription schools.

educational facilities were private institutions and subscrution schools.

The public-spirited townsmen finally
concluded to erect a public school and
selected the site. Here a building was
constructed and the old belt was pinced
in its tower. In years gone by some of
our older citizens remember the peals of
that belt. Then the pupil's grew in numbers and the old school grew too small.

Another and more improved building
(now known as school No. 1) was erected,
and the ancient belt whose mellow peals
echoing from the walls of the dizzy Alps
seven centuries ago called the humble
peasants to worship, now startles the
youths of Patterson from their morning
beds. Napoleon's voice may have made
the whole world tremble, but the voice of
the little Swiss bell rings further now
than his.

IN THE SUNDAY WORLD.

And yet it bests in bright noontide, it schoes gisdly childish voices; A sailor's wife leans here, and wide fier outlook till her heart rejoloss.

For 'tis not every craft that lies So ealmly on a kindly shore; And 'tis not every heart is wise To cherish love when youth is o'er. —Beatrie L. Tollemacks in the Academy Success on a Cash Basis
